

SUPPLEMENTARY INFORMATION: In the final rules section of the **Federal Register**, EPA is approving the state's SIP revision as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on part of this rule and if that part can be severed from the remainder of the rule, EPA may adopt as final those parts of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the rules section of this **Federal Register**.

Synopsis

By this document, we extend the deadline for filing reply comments in response to the *NPRM* in WT Docket No. 13-301 to allow parties to more thoroughly address the technical issues raised in the *NPRM* and in the record. Interested parties now will have until May 16, 2014, to file reply comments.

On February 28, 2014, AeroMobile Communications Limited ("AeroMobile") and Panasonic Avionics Corporation ("Panasonic"), jointly, and CTIA—The Wireless Association ("CTIA") filed requests to extend the reply comment deadline in response to the *NPRM* by 60 days, to May 16, 2014. The Joint Motion and the CTIA Request contend that this extension is warranted for parties to properly address the complicated technological, legal, and policy issues raised by the *NPRM* and the initial comments. The Joint Motion and the CTIA request also assert that the additional time will provide various stakeholders—including AeroMobile, Panasonic, and CTIA—ample opportunity to consult with each other on technical issues.

Specifically, the Joint Motion states that more time is necessary for consultations regarding "the technical studies and authorization regime supporting in-flight mobile communications in Europe and
